Training sessions are divided into two sessions - training with your wordlists and training with enrolled courses.

To access each session, you have to either enroll in a course from the marketplace or create a wordlist and add at least one word in it.

Word-list training

you creates a wordlist named “TOEFL” and adds two words in it

This unlocks word-list training –

The training session consists of three phases:

1. Memorization
2. Quiz
3. Spelling practice

Each of the three phases will take place sequentially.

Your progress is shown in the top right corner of each card.

Memorization

Memorization starts with this screen. you will memorize this meaning and tap on the “tick” button if he is done, or on the cross button if he is unsure.

In this screenshot –

- | | |
|--|---------------------------|
| 1. Progress bar | 2 Word |
| 3. Example | 4. Meaning |
| 5. More examples | 6. See word in dictionary |
| 7. Press if the word is memorized. Also triggers swipe animation to the right. | |
| 8. Press if you are not confident about the word. Also triggers swipe animation to the left. | |

If all words are not memorized, the session proceeds with the crossed words until none is left. Then you have to try again until he can tick through all the words in one run. Without that, the training session will not proceed.

The memorization session completes when all words are memorized, i.e., there are no crossed words in the first round. (As shown on the right)

As memorization is done, the training session proceeds and the progress bar starts to fill.
